

GROW OR PAY

The aim is to avoid pressing the red buttons while pressing the aqua and green buttons, allowing you to open the orange and yellow gates and collect the gems (if you're brave enough).

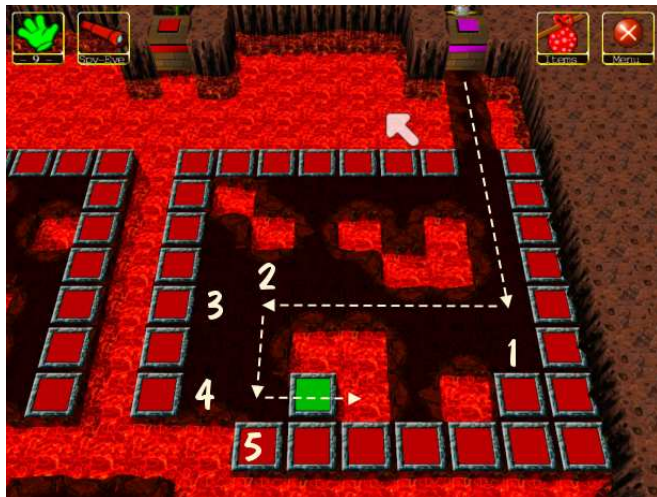

Lefthand spikey

Charge glove and place and place grows at 1,2 and 3.

Open gate to let out spikey and, standing just above button, place grows at 4, 5, 6 and 7. You need to do this quickly before spikey arrives at the spots.

Spikey will follow the path shown, pressing button and ending in the lava.

Righthand spikey

Open gate to let out spikey, then stand on charger and place grows at 1, 2, 3, 4 and 5.

Spikey will follow the path shown, pressing button and ending in the lava.

To collect gems walk to middle gem, wait for flower to fire, then get gem at end and place a grow at A. Repeat at the other side, placing a grow at B. These will keep you safe while you go from side to side.

Walk through gates and get star and fire key.
