

## CELLAR EXCAVATION

Allow the boomers to freeze where they are. Unfreeze them all with the one in the middle.

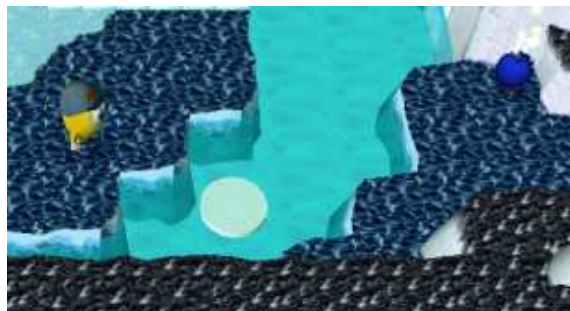

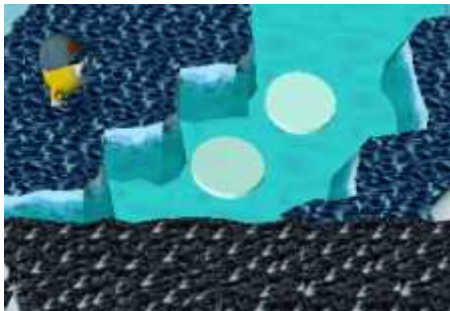

Use on to blow up barrel near door. Take the others (5) to area near door.

Charge Brr glove and get coins.

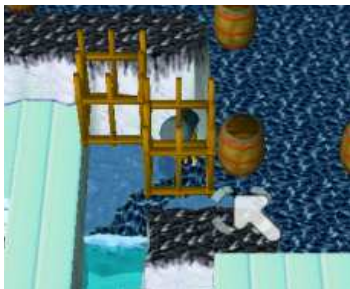

Brr paths diagonally across to the boomers. (4 Brr's used)

Brr 2 tiles side by side and move one boomer across diagonally. Go over yourself and Brr 2 tiles behind you for use later on. (8 Brr's used)

Use boomer to blow barrel near Pow charger.

Go over bridge and Brr a tile behind you with your last Brr.

Charge your Pow glove and blow barrels near cages, recharge Pow.

Walk diagonally through cages, don't blow up that barrel.

Blow up the barrels marked with X. Let out the turtles and go and stand 2 tiles below the blue button on the little island. Use your spy-eye to watch the turtles on their journey.

## CELLAR EXCAVATION

Once all the turtles are over, stand on the blue button to lift the last two turtles out of the water and quickly move back to where you were to divert them. You will have to do this twice.

Walk over the turtles to the gem and barrel area.

Open the door with the red button and bring 3 boomers through. Stand them in the positions shown to blow up the barrels on either side.

Walk round the previously Br'd ice path to recharge your Pow. Use your Pow to blow up the barrels marked with X.

Use the last boomer where shown to blow all the rest of the barrels in one go.

Remember to move used boomers out of the way of other exploding boomers.

Collect the gems and you're done.

Alternatively you can use less boomers and blow up more barrels yourself with your Pow.
