

# Gold Coin Islands

Peegee needs to cross a stream and collect gold coins on an island archipelago.

Can you find a path through this maze?

Rules:

1. You must visit each small island *exactly* once.  
(i.e. once an island is visited, you can't step on it again)
2. You can never retrace your path.  
(i.e. once you take an island connector path, you can't use it again)
